Dear madam,

As you are aware the Novel CoronaVirus Disease (COVID-19) has now spread to more than 76 countries causing close to 93000 cases and more than 3200 deaths worldwide. The World Health Organization (WHO) on 30th January, 2020 declared this outbreak as a Public Health Emergency of International Concern (PHEIC). Though, WHO has not yet declared it to be a pandemic. it has advised countries to remain prepared for one

Several confirmed cases have also been detected in India. Although, we are taking all steps necessary to prevent further importation of such cases and to also prevent local transmission of this disease in India, it will be prudent to raise community awareness about common signs and symptoms of this disease and advocate simple public health measures, the community may undertake to prevent infection

Towards this end, this Ministry is in the process of disseminating pertinent information to the community through all channels of communication and from all possible vantage points. We have designed posters & Audio Video products towards this end, some of which are being sent along with this letter. Soft copies of these are available on Ministry's website (<https://mohfw.gov.in/node/4904>) You are requested to widely disseminate the same.

You are requested to leverage the young volunteers from Nehru Yuva Kendra to disseminate the Dos and Dont's of COVID-19 at grass root level where they are already actively engaged. Also, the poster may be displayed prominently at the NYK offices and meeting locations.

To pre-empt any further risk of spread of COVID-19, I urge you to personally monitor that mechanisms are in place for successful dissemination of these messages to the maximum number of people.

With regards,

Yours sincerely

Singhal
